SMART AND EASY-TO-INSTALL SECURITY SOLUTIONS

RELIABLE PROTECTION FOR ANY KIND OF PREMISES

We are security market professionals for more than 14 years. Our products are designed and manufactured in Lithuania, European Union, what brings the highest security level and quality products to more than 70 countries around the globe.

Our goal is to make installations easier to our customers by creating smart, intuitive and value-for-money products.

We specialize in wireless security solutions - our latest products reach up to 3 km in open areas. It ensures smooth functionality in premises up to 300 m². Our goal is to become Your number one choice for installations!

WHY ELDES:

EASY-TO-INSTALL SOLUTIONS

We constantly analyze ideas and requirements of installers to implement it. Intuitive Eldes Utility software, system preconfiguration. Remote connection and other time-saving features makes every installation extremely satisfying.

HIGH EUROPEAN QUALITY

High European quality is one of many reasons why installers choose us. All Eldes products are assembled in Lithuania where the high standards and quality control takes the 1st place.

INNOVATION-DRIVEN SOLUTIONS

We combine multiple well-known technologies into a single engineering masterpiece. The result is a unique ecosystem, that includes reliable security home automation, effortless connection to monitoring station and intuitive Eldes Security App.

FREE

ELDES SECURITY APP

Always know what's happening at home. Arm/disarm a security system, check temperature at home and control heating or lighting from anywhere.

An exceptional Dahua video monitoring allows to check your home 24/7. Be informed about burglary after sensors are triggered, check what your children do at home, etc.

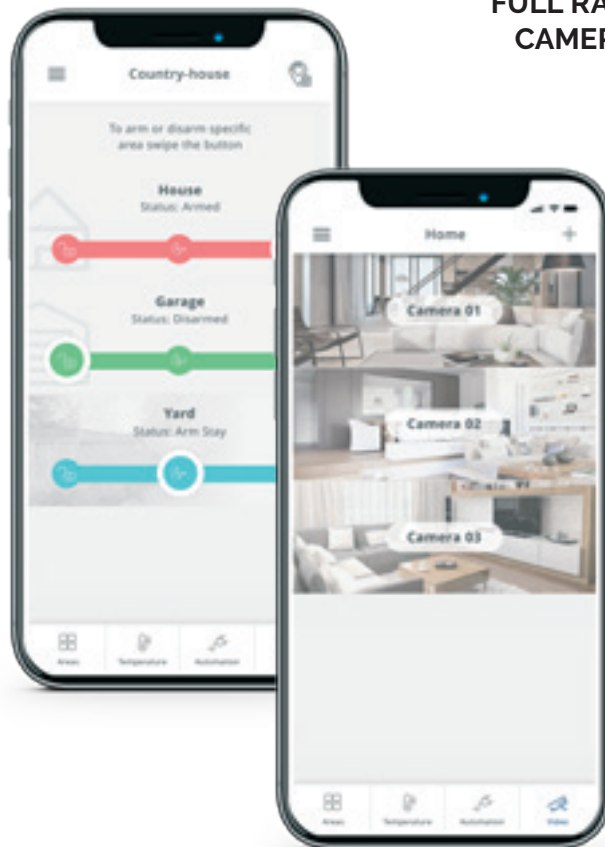

Don't waste your time setting up network equipment - add camera to the Eldes Security App in less than 5 minutes!

FULL RANGE OF DAHUA IP CAMERAS SUPPORTED

FUNCTIONALITY:

- Arm/disarm security system
- Monitor temperature
- Control home appliances remotely
- View push notifications by events
- Administrate users with ease

VIDEO MONITORING FEATURES:

- Live stream from home 24/7
- Camera-to-Zone assignment
- Advanced camera control
- Screen capture & video recording on a phone
- Camera event history

Free Eldes Security App for end Users is available on:

WIRELESS INTRUSION ALARM PANEL

For apartments and small houses

PITBULL ALARM PRO

Pitbull Alarm PRO is a professional alarm system, integrated into a motion sensor. You will like an extremely fast installation and configuration, breakthrough wireless range and a simple connection to majority of monitoring stations. The solution has a built-in temperature and motion sensors, wireless/GSM/GPRS modules and it's a perfect fit for smaller installations. Pitbull Alarm PRO can work as a stand-alone device or operate with up to 16 Eldes wireless devices.

MAIN FEATURES

- 2x Nano SIM cards for extra safety
- Operates up to 34 zones (16 wireless devices)
- Multiple ways of control
- Wireless range up to 3 km in open areas
- 1 input, 1 output
- Audio indication via built-in buzzer
- Backup battery, up to 24h

*3G version is Grade 2-ready. Although, it does not contain 2nd Nano SIM card slot and does not support Voice Calls communication channel.

HYBRID INTRUSION ALARM PANEL

For large houses and business

ESIM384 - POWERFUL SECURITY SYSTEM

A hybrid alarm panel ESIM384 contains on-board GSM/GPRS, wireless modules, PGM outputs and wired connections, so you won't have to spend any additional money. Scheduler with up to 16 scenarios and multiple PGM outputs enable home automation possibilities. 2x SIM cards and optional Ethernet module ensure maximum level of safety.

MAIN FEATURES

- Operates up to 144 wireless and wired zones (64 wireless devices)
- Compatible with almost any monitoring station
- Multiple ways of control
- Wireless range up to 3 km in open areas
- Expandable with additional PGM outputs, wired connections and temperature sensors
- External backup battery, up to 30 h

KEYPADS

WIRELESS TOUCHPAD EWKB5

An attractive touchpad that contains an extremely simple user interface to guide user in every step. And it actually talks!

- Voice assistance (8 languages)
 - User-friendly interface
 - 4.3" TFT touch screen display
 - Customizable menu
 - Battery powered (up to 14 months)
 - Wireless range up to 1000 m
 - Additional DC power supply
-

WIRELESS LED KEYPAD EWKB4

A compact and battery powered keypad which is flexible to install in any room or premises.

- LED indicator for visual guidance
 - Status of zones display
 - Customizable zone number indication
 - Audio indication via built-in buzzer
 - Battery life up to 5 years
 - Wireless range up to 3 km in open areas
 - Built-in temperature sensor
 - Additional wired zone for third party detectors
-

WIRED KEYPAD EKB2

Great functionality in the attractive and modern design body.

- LCD graphic display
- Informs about temperature, GSM levels, zone status and system faults
- Touch sensitive buttons
- Can be used as a back-up tool for system configuration

WIRELESS SENSORS

Available colors:

WIRELESS DOOR CONTACT & WINDOW SENSOR EWD3

Senses vibration and measures temperature. EWD3 can be used as a transmitter for third party wired sensors.

- LED indication
- Additional wired zone for NO/NC, EOL and flood sensor
- Wireless range up to 3 km in open areas
- Battery life up to 5 years
- Adjustable vibration sensitivity

WIRELESS MOTION SENSOR EWP3

Pet-immune PIR detector with integrated temperature sensor.

- 90° detection coverage
- Pet-immune, up to 40 kg
- Wireless range up to 3 km in open areas
- Battery life up to 3 years
- Integrated temperature sensor

WIRELESS SMOKE SENSOR EWF1

Detects smoke before it bursts into flame. Interconnected alarm will notify whole premises at once.

- Built-in LED indicator
- Integrated siren
- Photoelectrical sensor
- Optional version - EWF1CO with carbon monoxide sensor

SIRENS

WIRELESS OUTDOOR SIREN EWS4

Louder, stronger, bigger EWS4 is a perfect add-on for Eldes security system. It alerts about danger with deafening alarm noise and bright LED lights.

- Space for partner's logo
- Battery life up to 5 years
- Wireless range up to 3 km in open areas
- Ability to power up via wire
- Sound level 104-110 dB
- Resistant to water and dust

WIRELESS OUTDOOR SIREN EWS2

- Built-in speaker
- Sound level: 104dB
- Integrated LED indicator

WIRELESS INDOOR SIREN EWS3

- 2 built-in speakers
- 3 LED indicators
- LED and sound indication differs depending on the type of alarm (fire alarm, intrusion alarm)
- Sound level: 90 dB

ACCESSORIES

WIRELESS POWER SOCKET EWM1

Automate and control household equipment remotely.

- View your home electricity consumption
- Control home appliances via keyfob or Eldes Security App
- Fault indication and protection
- Compatible with any 230V electrical appliance
- Power consumption less than 1W

KEYFOB EWK2

Wireless keyfob is back in black. Enjoy the new classic black on your favourite design.

- Customizable buttons for full system control
- Visual LED indicator
- Built-in buzzer notifies via short (completed command) or long (failed command) beeps
- Optional EWK2 version - panic button EWK2A

GATE CONTROLLER ESIM320

ESIM320 is a remote GSM controller designed to operate gates, barriers and garage doors via SMS, mobile application or widget. Maintain the gate controller remotely using Eldes Cloud web platform or SMS.

AVAILABLE ON:

Android

iOS

MAIN FEATURES

- Up to 2000 unique users
- Up to 5 administrators
- Integrated GSM/GPRS module
- Customizable entrance permission (by phone number, date, number of rings, schedules)
- 2 outputs, 3 inputs
- Customizable alarm texts
- 3 different enclosures for inside, outside and panelboard installations

UNIVERSAL 2G OR 3G COMMUNICATOR ET083

A cost-efficient way to connect most of alarm panels to monitoring station or add extra communication channel for additional safety.

MAIN FEATURES

- Multiple ways of connection: SERIAL CABLE, KEYPAD BUS and PSTN/RING TIP interface
- Supported protocols: EGR100, Ademco Contact ID, SIA IP and Kronos (GRPS)
- Firmware Over-The-Air updates
- Remote configuration of communicator
- Remote arm/disarm of third-party alarm panel
- Up to 5 users
- Provides communication via LAN/GSM/GPRS

ELDES UTILITY SOFTWARE FOR INSTALLERS

Professional software for installers, developed from the feedback of our customers. Eldes Utility is designed for extremely fast installations and convenient system maintenance.

The innovative software contains optimized user interface, system pre-configuration and other time-saving features

AVAILABLE ON:

Windows

MAC OS X

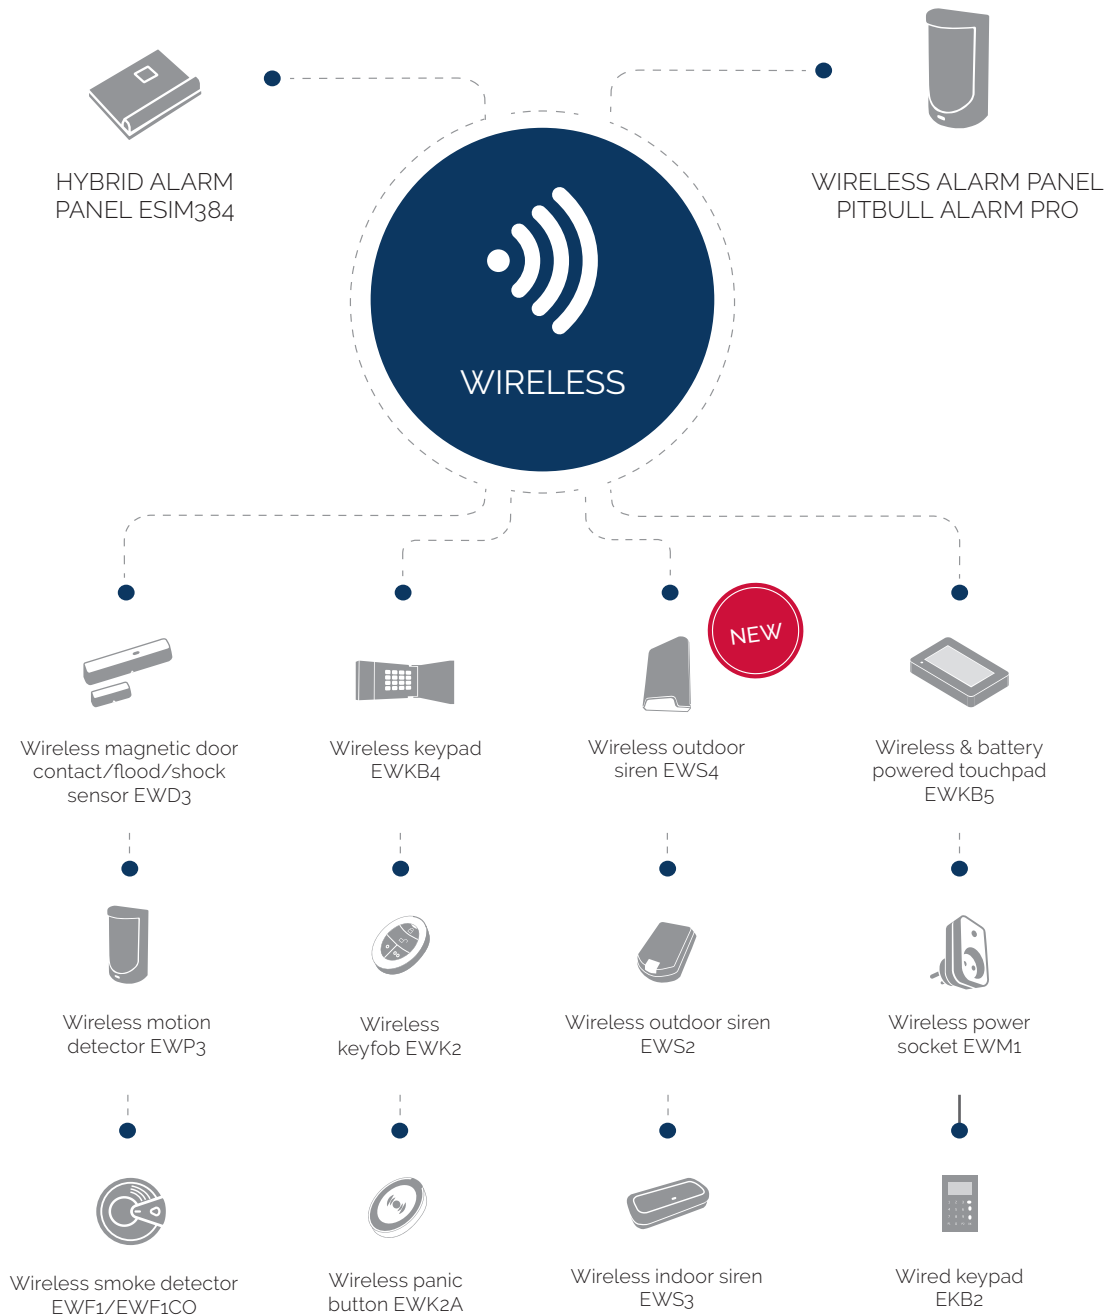

Android

Eldes Utility allows to configure the security system without leaving your chair. Add/remove users, assign rights on specific areas, remove wireless devices and most importantly fully configure Eldes security system with its accessories.
